Press Release
Standridge Color Corporation

Lufkin Economic Development Corporation (LEDC) announces a new arrival to our fast-growing manufacturing sector. Standridge Color Corporation is a leader in providing services to the thermoplastic processing industry. Standridge has 7 (seven) manufacturing facilities in the USA and operations in Czech Republic and China. Standridge's corporate headquarters is in Social Circle, Georgia with a total company employment of approximately 400. Standridge Color is a family owned business and has been operating over 40 years.

Standridge offers many services in the thermoplastics processing industry by offering a single source for standard colors, custom colors, additive concentrates, custom compounding, custom resins, and specialty dispersions, with an expansive range of support and technical expertise. Standridge serves many markets in the plastics business including but not limited to blown film, cast film, blow molding, injection molding and profile extruding.

"We understand that our customers are our future, we believe in proving quality products and we are confident Lufkin will be a great addition for our United States operations" said Bob Standridge, owner of Standridge Colors.

Standridge plans to invest millions of dollars in the location on Industrial Street and create 15 - 25 new full-time jobs by 3rd quarter 2021. Standridge Color voluntarily chose not to apply for property tax relief or economic incentives from the local taxing entities. Standridge has already made monetary contributions to local educational programs and other charitable organizations in Lufkin.

"We are pleased to have Standridge Color in Lufkin as the City continues to attract long-term generational manufacturing jobs into our economy" said Bob Brown, City of Lufkin Mayor.

Standridge Color encourages all interested candidates to visit <https://www.standridgecolor.com/contact-us/> to view employment opportunities.
